

Implant Continuum

A Movement from Theory to Practice:

There are many excellent implant training programs available both in Canada and the United States. After obtaining a solid foundation in the field of implant dentistry through several weekends of courses, countless hours of theory and some hands-on training on models, it is not always easy to start performing those procedures on your own. Many clinicians begin with simple straight forward cases, which are safe and predictable on every level. However, as time passes and the information you gained from your training fades, it becomes even more challenging to treatment plan and confidently perform more complex cases. If this sounds familiar and you would like to be part of a program that can help you achieve your goals in implant dentistry, then the Toronto Implant Continuum may be exactly what you are looking for.

More Than A Study Club

Toronto Implant Continuum:

- Small group learning environment, maximum 12 participants
- 4 one day hands-on surgeries on your own patients
- Ongoing treatment planning and clinical support throughout the year
- You may bring your own assistants to observe, take notes and learn what they need to do in your office to set up rooms and become valuable members of your surgical team

Devoted to the Advancement of Implant Dentistry

Dr. Berzin is an award winning doctor who has received recognition for his work in implant dentistry. He combines two decades of experience with careful innovation and cutting-edge technology to create the gorgeous smiles his patients dream of. His reputation for excellence has spread from his patients and referring doctors throughout the entire implant dentistry field. That reputation, along with his numerous international credentials and accolades, has elevated him to the top echelon of oral implantology.

Dr. Berzin is actively involved in advancing the field of implant dentistry. He serves as Instructor and Faculty on the Misch International Implant Institute. Dr. Berzin is Founder and Director of the Toronto Implant Continuum. He holds Diplomate status at the International Congress of Oral Implantologists. He is an Honoured Fellow of the American Academy of Implant Dentistry and is a Past President of the Central District of the American Academy of Implant Dentistry. He serves on the Board of the American Board of Oral Implantology/ Implant Dentistry, where he holds Diplomate status, and has been serving as an Examiner on the American Academy of Implant Dentistry Admissions and Credentials Board and the American Board of Oral Implantology/ Implant Dentistry, while maintaining private practice in Toronto.
